NOTA IMPORTANTE

En nuestro mercado hay un cierto número de automóviles conocidos como “**importaciones grises**”, son unidades traídas al país por vías diferentes a la de los distribuidores autorizados por los fabricantes. En algunos casos no hay respaldo de servicio y refacciones y en otros tienen especificaciones diferentes a las de los automóviles que ofrece la red autorizada de la marca. Tampoco es posible establecer un precio uniforme. Todo lo anterior puede hacer que sufren una baja considerable en su precio de mercado. Guía Autométrica no sigue ni reporta el precio de dichas unidades.
